# Checklist: Find A Great Mentor

Once you know what you are looking for in a mentor, make a list of potential mentors you could build relationships with. Use this checklist to determine if they would be a good fit for you!

## YES NO

- Do they have the things you want (character, skills, relationships, life, wealth, resources)?
- Do they give you access to more networks that can help you achieve your goals?
- Do they give you constructive criticism (or just tell you what you *want* to hear, instead of *need* to hear)?
- Are they compatible with how you like to work, and would you like to work with them for many years?
- Do they take you through a process to ensure you are both aware of expectations, or do they just say "*let's do this!*" before you know what you're getting into?
- Are they someone who knows and understands your goals?
- Can they give you a game plan to reach your goals?

If you've answered yes to these, pursue that person until you can earn their mentorship! Show them you are **coachable**, **accountable**, and **trustworthy**.
